

CONTRACT MANAGEMENT

CO-ORDINATE YOUR ENTIRE BUILDING SYSTEM

LET BUSINESSCRAFT PIECE TOGETHER ALL FACETS OF YOUR BUSINESS WITH CONTRACT MANAGEMENT

Contract Management can be used stand-alone, or fully integrated to the estimating and accounting modules for complete control.

Linked to a debtor, it enables multiple contracts per debtor, which can be of various Sale Types. Each contract can also record many reportable detail fields for further sales and workflow analysis.

JOB TRACKING

Define your own user-definable task lists, which link to forecasting schedules, providing total analysis of timeframes throughout the entire building lifecycle.

Why not compare forecasts and actual completion dates to the baseline, to see where a process may be costing you time *and* money.

VARIATIONS

BusinessCraft provides the ability to record and track every variation, which can be tracked and reported using its own set of tasks, ensuring that costly mistakes are kept low.

DOCUMENT MANAGEMENT

Record all documentation against every job, including Letters, Faxes, Photos, PDF Documents and more, all from the one job.

Reduce inefficiencies, by automatically merging contract information to your letters and faxes, removing further modifications for standard correspondence.

COLOUR SELECTIONS

Virtually unlimited recording of customer colour selections to keep you constantly informed. Produce professional selection documents, and report on any selections by a customer, depending on their progress through the building cycle.

SERVICE & WARRANTY TRACKING

Record all customers warranty issues using the Service Request module. Report on all service requests, including outstanding requests, completions for period by type of service, service costs and many more.

REPORTING

Capture full detail, summary or graphical KPI and Statistical reporting for all levels of your business, and automatically schedule these reports for information at your fingertips.

Do you need custom reports? You have full design control over any report produced.
